Questions?

Spring Horticulture 2014

Stuart Shillaber

Existing Conditions

A busy environment of light posts, utility boxes, benches and trash receptacles

Parcel 10 Pergola Planting Plan:

Objective: A robust 4-season landscape that buffers park users from the busy street

Tasks:

- Engage contractor and order plants
- Prepare beds (remove existing underperforming shrubs/salvage good materials)
- Amend soil as needed
- Install plants
- Rework irrigation
- Top dress with composted mulch

Recommended Planting Design Approach

- A. Retain street trees and evergreen junipers along street edge because they work
- B. Add more mid-height shrubs for diversity
- C. Insert punches of high color roses

Pergola planting plan

Pergola section looking southeast:

Good scale relationship to street, walking area, furniture and remainder of park

NORTH END PARKS PERGOLA SCALE: 1/4" = 1'-0"
