Questions & Answers

Request for Qualifications

The Greenway Dance Series

Presented by Amazon

Question: Can you provide an alternative downloadable preview of the application in full?

Answer: Yes, the pdf preview version of the application can be found [here](#) and has also been added to the first page of the [application](#). Please still use the online application to submit.

Question: Do you require each applicant to work with a company of 8+ performers as shown in the sample budget, or can there be fewer?

Answer: You can propose fewer performers, however, we are looking for final performances that are able to capture an outdoor audience and make an impact in the chosen location. We believe this is more achievable with a company of 8+ performers, but there is certainly room for discussion.

Question: What makes for a strong work sample for this application?

Answer: Generally, whatever you feel best represents your practice and craft. Given the themes of this project, we would suggest pieces that showcase strong conceptual underpinnings and that you feel passionate about and proud of.

Question: Do you prefer to see complete (indoor theater) dance performances, or edited dance films that incorporate footage from outdoor dance engagements?

Answer: We are open to seeing work that you think best reflects your style and abilities. Full works, in any locale, are helpful in understanding the narrative approach to a whole performance. You may provide directions to timestamps as core or key sections for us to watch. Heavily edited films can reduce our ability to understand how you would approach live performance. If applicants have work that is site-specific (in any location), that would be a great choice, though it is not required.
